

TKM-100 Tubular

Framon's TKM-100 is known throughout the industry as the foremost machine in tubular key cutting. Everything you need to originate almost any tubular key in use today is included with the TKM-100

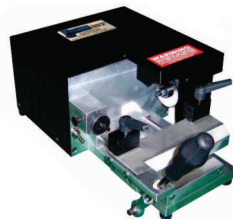

Features a collet that can accommodate all three size tubular keys. No fumbling with changing jaws or adapters. Simply tighten the chuck closer – the self adjusting collet easily accepts any size key.

FRTKM-100 \$3,398.00

JD-12 Detention Key Duplicator

An interchangeable guide allows the machine to be converted from cutting paracentric-style keys to cutting mogul keys. All cutting wheels for the machine are made of solid carbide. Changing the machine over from paracentric to mogul takes approx. one minute. The JD-12 is preset at the factory to cut paracentric keys; the mogul kit (part number JD-12MK) is available separately.

FRJD-12 \$3,498.00

Express™ Semi-Automatic Duplicator 110V

The Express™ quickly and accurately duplicates almost any cylinder key effortlessly. Built in tip stops for shoulder-less keys eliminates the need for key stops. When cutting BEST® keys, simply flip the tip stop over and tighten the thumb screws. Rod wipers are included. During cutting, these wipers keep shavings out of the guide rod housing, preventing jamming of the yoke assembly.

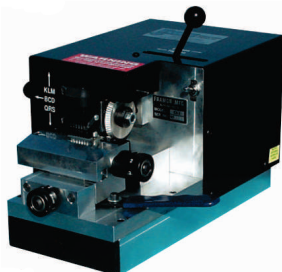

Cutter: FRLK845 **FREXP1 \$3,498.00**

KX-1 Code Machine 110V or 12V

The KX-1 is Framon's revolutionary new code machine designed for locksmiths looking for speed and accuracy. The KX-1 utilizes depth and space cams and a spring loaded carriage to cut keys accurate to .0005" in about 15 seconds.

FRKX-1-SC Schlage \$4,798.00

SD2 Sidewinder

NEW! Seven cutters and three guides included at time of purchase! VW/Audi Vises Also Included!

The Sidewinder 2 includes two each of our 5/32" cutter, 3mm cutter, and 3/32" cutter as well as their respective guides. Our GHCB093LS cutter is now included in the SD2-LX7 package. Volkswagen & Audi vises are included as well as the standard set of vises. With this combination you can duplicate all of the keys mentioned above.

Change From Duplication To Code Cutting In Seconds

The Sidewinder 2 uses depth & space "rods" which can be engaged in about 15 seconds when you want to code cut. Simply tighten the knurled thumb screw to engage the rod.

Code Cut Volkswagen/Audi, Honda, Lexus Long & Short, GM, Ford, and Hyundai/Kia 4 Track Out Of The Box

The Sidewinder 2 comes with everything you need to code cut all of these keys at time of purchase. Depth & space rods are easily changeable. Switching from one manufacturer to another takes about one minute and requires no adjustment to the rods.

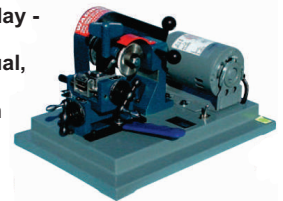

FRSD-2 \$4,598.00
