Locksmithing 101

By Don O'Shall & Tony West

Written by two of the Locksmithing and Security Industry's most popular instructors and most prolific authors, this book will take a person from apprentice to the Journeyman level of knowledge. This book will take the reader step by step into the important aspects of the Locksmithing skill sets.

DSL101W \$125.00

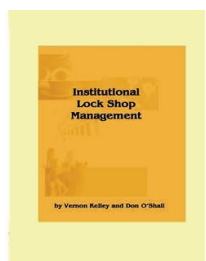

Master keying Textbook 2nd Ed.

By Don O'Shall & Tony West

This easy to read, comprehensive manual is intended to take you from beginner through intermediate in a matter of only a few days. Based on the popular two day course and the original Practical Master Keying of Pin Tumbler Locks from 1981, but fully updated and using all approved terminology whenever possible.

DSMKTB2 \$65.00

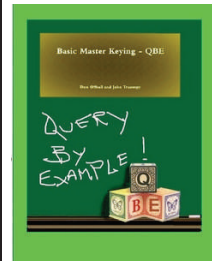

Institutional Lock Shop Management

By Don O'Shall & Vernon Kelley

This book is the most efficient guide available to help you run your In-House lock shop, following the best procedures to protect your institution's investment in your shop, your workers and yourself. Learn from recognized professionals the best ways to manage your shop and your employees.

DSILSM \$65.00

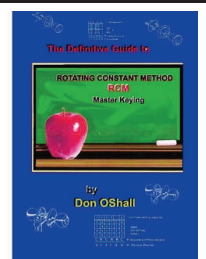

Basic Master Keying QBE

By Don O'Shall & John Truempy

This book uses the amazingly effective teaching tool known as QBE or Query By Example to teach Basic Master Keying quickly and efficiently to move the beginner or apprentice to a reasonable skill level in the least time possible.

IF YOU ARE NEW TO MASTER KEYING, THIS IS THE BOOK FOR YOU!

DSBMK \$85.00

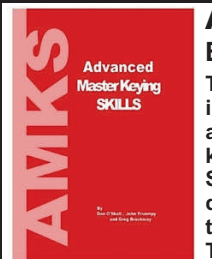

Rotating Constant Method

By Don O'Shall

This book is the definitive guide to one of the industry's least understood tools - Rotating Constant Method of Master Key system design. Written in an easy to read language, it makes this previously often misunderstood technique very clear.

DSRCM \$95.00

Advanced Master Keying Skills

By Don O'Shall & John Truempy

This book is NOT for the beginner. The skills taught in this book should only be used by locksmiths who are well grounded in basic and intermediate master keying techniques and fully comfortable with the Standard Progression Format (SPF) charts and the development of standard Master Key systems using them. But if you are ready for the next level,

THIS BOOK IS FOR YOU! **DSAMKS \$65.00**
