

Black Gold 137° Heavy Duty

- Superior quality - 137° split point.
- Heavy taper with narrow tip for quick starts without sacrificing the structure
- Excellent in high speed machining application.
- Engineered for less torque and lightens operator load
- Industrial-grade NAS high speed steel (HSS)
- Aggressive web taper prevents breakage for more holes per drill bit
- Split point tip penetrates on contact & prevents drill bit "walking"
- Shorter, stronger cutting tip for easier drilling and longer life
- Industrial-grade nas high speed steel (HSS)

Individual Drill Bits - Price is for each bit

Cobalt 135° Heavy Duty

- Premium quality - 135° split point
- Produced from industrial-grade nas cobalt steel
- Superior red hardness for high temperature applications
- Less end load pressure required
- Split point penetrates on contact and prevents "walking" of the bit
- Hard surface with high lubricity

Individual Drill Bits - Price is for each bit

Part #	Size	Length	Price
